Experience

Founding Designer, Design Engineer - Consumer Crypto Marketplace

Frequency (Stealth) · 2025 · Toronto, Canada

Designed multiple iterations of a L2 built on Berachain marketplace where advertisers and publishers can create, bid, and manage campaigns. Claude Code, Cursor, Figma MCP, shadcn.

Senior Product Designer - Developer Tools

Coinbase Developer Platform · 2025 · Toronto, Canada

Designed and shipped the SQL Playground and Embedded Wallets. Explored global Sign Up and Pay with USDC to make blockchain tools simple and consistent.

Senior Product Designer - AI Agents

Voiceflow · 2025 · Remote, Toronto Canada

Worked directly with Braden (CEO) focused on improving product activation through enhanced onboarding flows and redesigning the company landing page.

Founding Product Designer - AI and Crypto Agents

Theoriq · 2024 · Toronto, Canada

From a PDF to 140.000 active users in 6 months leading product, brand and marketing.

- Designed end-to-end experiences from marketing to core product across AI interfaces.
- Designed and implemented in Storybook a scalable design system that reduced friction across teams.
- Partnered with leadership to prototype, design, and ship intuitive AI-powered user interfaces.

Lead Product Designer - Agency Studio

Never Before Seen · 2024 · Remote, Toronto Canada

Leading product strategy and design execution from zero to one at Never Before Seen, shaping early-stage SaaS products as part of the NBS Studio Team. Clients include: OnlyDust, JazzX, DeFi Tuna, Graceview...

Product Design Lead - SaaS Accessibility

CurbCutOS · 2023 · Remote

Led product design transformation at CurbcutOS from consulting to SaaS platform, establishing design system and accessibility testing suite adopted by major corporations.

Senior Product Design and Lead - Crypto

Early Crypto Stealth Startup (Steel Perlot backed) · 2022 · Remote, NYC

- Led small design team from zero and established component library for rapid iteration
- Shaped user experience for emerging financial tools in the crypto space
- Extended work into DeFi platforms, making complex financial tools accessible

Senior Product Designer, Design System - Marketplace

Zalando SE (now Partner) · 2025 · Remote

- Built first B2B design system improving development efficiency by 40%
- Created documentation and component strategy for cross-team adoption
- Led open design sessions supporting multiple business verticals

Education

Graduated cum laude
ILAS Designers School

Software Engineer (not completed)
University in Naples

Experience continued

Senior Product Designer

[TravelNest](#) · 2021 · Remote

Led cross-platform design system and design direction across product, marketing, and engineering, reducing development time and accelerating implementation through a design maturity framework.

Founding Designer

[Artscapy](#) · 2020 · London, UK

Led brand and product design, building the MVP and design system that secured £300K funding.

UX/UI Design Intern

[Apple Developer Academy](#) · 2019 · Naples, Italy

Learned precision, systemic design, and Apple's high standards for clarity and craft.
