1. Freelance / Studio Identity (continuous)

Freelance Designer, Design Lead

Independent, [Never Before Seen Studio](https://neverbeforeseenstudio.com) · Jan 2016 - present · Freelance / Studio

Independent product design work across startups, founders, and small teams. AI-native systems, Skills framework, agent UX, rapid prototyping. Design systems, UAM 2.0, ShadCN-based UI kit, Claude Code, agent workflows, custom UX workflows. Leading design for Never Before Seen studio.

Selected clients: Frequency (Berachain), ObviousAI, Graceview.ai, JazzX AI, Obvious.ai, Artscapy, TravelNest, CurbCutOS, Reasonal, Kerubin, AI.ta Cucina, Notion consulting for teams, early Apple Academy collaborations, and various early-stage startups.

2. Full-Time Roles

Founding Product Designer - AI and Crypto Agents

[Theoriq](https://theoriq.com) · July 2024 - July 2025 · Toronto, Canada

- Owned the end-to-end product experience across UX, system design, brand, and front-end implementation.
- Designed governable interaction models for AI agents and collectives operating with real assets.
- Partnered with CEO and co-founders to turn experimental agent infrastructure into a shippable product teams could trust.

Product Design Lead - SaaS Accessibility

[CurbCutOS](https://curbcutos.com) · April 2023 - November 2024

Led product design transformation at CurbcutOS from consulting to SaaS platform, establishing design system and accessibility testing suite adopted by major corporations.

Senior Product Design and Lead - Crypto

[Early Crypto Stealth Startup](https://earlycrypto.com) (Steel Perlot backed) · May 2022 - April 2023

- Led small design team from zero and established component library for rapid iteration
- Shaped user experience for emerging financial tools in the crypto space
- Extended work into DeFi platforms, making complex financial tools accessible

Founding Designer

[Artscapy](https://artscapy.com) · 2020-2021 · London, UK

Led brand and product design, building the MVP and design system that secured £300K funding.

3. Core Contract Roles (embedded with product teams)

Senior Product Designer - Developer Tools

[Coinbase Developer Platform](https://coinbase.com) · Summer 2015 · Contract Senior Product Designer

Supported Coinbase design team with explorations on SQL queries, Pay with USDC and more

Education

Graduated with honors
ILAS Designers School - 2018

Software Engineer (discontinued)
University in Naples, Italy - 2019

Experience

Senior Product Designer - AI Agents

[Voiceflow](https://voiceflow.com) · Q1-Q2 2025

Worked directly with the CEO to improve activation, onboarding, and early growth surfaces for AI agent workflows.

Senior Product Designer, Design System - Marketplace

[Zalando SE \(now Partner\)](https://zalando.com) · 2021-2022 · Remote

I helped build the first B2B design system to support multiple business verticals, improving development efficiency and cross-team consistency.

Senior Product Designer

[TravelNest](https://travelnest.com) · 2021 · Remote

Led cross-platform design system and design direction across product, marketing, and engineering, reducing development time and accelerating implementation through a design maturity framework.

UX/UI Design Intern

[Apple Developer Academy](https://apple.com/developeracademy) · 2019 · Naples, Italy

Learned precision, systemic design, and Apple's high standards for clarity and craft.
